

Chickapea[®]

Good with every bite.

Dear Store Manager,

I would love to see **Chickapea Pasta** and **Chickapea Vegan Mac** in your store!

Chickapea pasta is a nutritious, high-protein, organic pasta made with only chickpeas and lentils—that's it! All Chickapea foods are organic, non-GMO, gluten-free, vegan and kosher. Each serving packs 23g of protein, 11g of fiber and loads of nutrients including iron, magnesium, folate and vitamins. It looks, cooks and tastes like traditional pasta, and it's perfect for customers who eat a vegan, vegetarian or gluten-free diet and also for busy families who need a fast and familiar food for the kids.

Chickapea Vegan Mac is a healthified version of a family favorite—macaroni elbows and a savory sweet potato, pumpkin and cauliflower sauce with 17g of protein.
