Silica Rich Clay

The formation of this unique clay began millions of years ago as a result of underground molten lava activity near what is known today as Crater Lake, Oregon. During the last Ice Age, slow moving glaciers removed the protective earthen cap from this deposit, exposing this extraordinary gift from the earth.

Herbs & Herbal Formulas

10 Day Immune Boost

Designed for a short term strong immune system build up. It contains herbs well known for their immune enhancement properties, including a few that are traditionally used for short periods only due to the potential reduction in friendly flora from long term use. These include the berberine containing herbs: Oregon Grape Root, Barberry Root Bark, Golden Seal and Bloodroot.

10 Day Immune Boost can be taken with **Immune Power** for best results, then continuing **Immune Power** during the 20 day period between **10 Day Immune Boost** sessions.

Adaptogen & Mushroom Blend

Provides a smooth, vitalizing influence, delivering 5-6 hours of calm, sustained energy with each dose. 2-3 caps in the morning and again in the early afternoon provides energetic support for the whole day, leaving you with energy left over at the end of the day. Contains several adaptogenic herbs which provide immune and hormone balancing influences along with a general strengthening of the whole the body.

Other herbs in **Adaptogen & Mushroom Blend** help to improve endurance, better performance, an increase in repetitions, superior oxygen utilization, faster workout recovery, and accelerated tissue rebuilding following stressful workouts.

Improves mental concentration, meditation, chi gong or martial art practices, sustained mental focus during a busy workday in the office, and extended endurance for those with physically demanding jobs. Allows you to work a long day and still have energy left over at the end of the day, improving the quality of time spent with friends and loved ones after work.

Long term usage gradually builds health and stamina due to the formula's nourishing influences upon the kidney jing (an energy more subtle and more foundational to overall health than the chi). Nourishes the body's immune system and cardiovascular system as well, strengthening the overall physical constitution, improving resistance to health compromises, while helping to restore greater youth and

Hyssop Mint Tea

A cleansing and cooling mint tea.

Available in:

bulk	3 oz	6 oz	12 oz
	\$17.00	\$30.00	\$55.00

Ingredients: Hyssop, White Oak Bark, Peppermint, Jiaogulan, Nettle Leaf, Lemon Balm, Lemon Grass, Spearmint

Recommended Use: **Low Level Cleanse:** 1 teaspoon to 1 tablespoon per 8 oz. of hot water. Steep for 4-20 minutes. Reheat if desired or add ice. Consume once or twice per day for mild cleansing and immune system enhancement.

High Level Cleanse: Add 1 cup of the herbal blend to 1 gallon of freshly boiled water. Steep 20 minutes. Consume 1/2 to 1 gallon of the tea in one day, hot or iced. Continue the cleanse for 1-3 days repeating the above instructions each day.

Take clay baths each day to remove toxins being cleansed. Moderate the diet as desired to enhance the cleansing & immune building effects. Refrigerate any remaining amounts for the next day.

If detox reactions take place, take clay baths more often, even 2-4 times per day, and discontinue, or reduce the quantity or strength of the tea.

Note: Hyssop Mint Tea consumed in large amounts for several days can be dehydrating due to its cleansing effects. With the more intense cleanse, best to drink the tea for 3-5 days then off for 2-3 days while increasing the consumption of pure water. Take daily clay baths (which also hydrates the body).

Immune Power

A potent combination of some of the world's most valued herbal immune rejuvenators.

Available in:

caps	120 caps	240 caps	480 caps
