

## THE GALET TRAVELLER USA ENAMEL DIAL

For this special limited edition of 10 pieces, Laurent Ferrier decided to pay a tribute to the USA as he offers a special enamel dial featuring North America.

### Cloisonné champlévé

The outline of the continents is formed using the technique of cloisonné champlévé that refers to an area hollowed out in a sheet of white gold, to take enamel. The dial is divided into compartments where the different colors of enamel are put.

### Case

For this limited edition, the case will be available in 18K/750 210Pd non-rhodiumed plated white gold.
