DEPTH

50mm for smaller plants up to 200mm for the larger plants

WEIGHT

Approx 4.5kg per panel

INSTALLATION

Please see our installation guide on our website: hedgeyourself.com.au

TRIMMING

Panels can easily be cut to size or to fit a unique shape, curve or space. Cut panels from the back only.

We advise you measure your area a few times before cutting to ensure a seamless finish and professional outcome.

APPLICATION

The panels are UV & Fire stabilized which means they are suitable for outdoor as well as indoor use.

Artificial vertical gardens are perfect for making a statement and a feature greenery wall while bringing a floral feel to your space.

CUTS EASILY

To cut your panels in to shape, simply use some strong kitchen sheers or sharp blade to cut the panels to any design. We advise you measure your area correctly before cutting to ensure a seamless finish.

LOCKABLE GRID SYSTEM

Each panel interconnects with a click and lock system so you can create a wall to any size you like.

The system is so simple that people from all ages can achieve it.

ECO FRIENDLY

Once installed, there is no need for additional power for lights, irrigation systems or call out fees to maintenance. Also, the material used is 100% recyclable.

RECYCLABLE

Our Evergreen Fern panels are made from low density UV stabilised polyethelene (LDPE). This is a common type of material used in many objects you use everyday. It can be collected and processed by most recycling programs.

UV STABLE

Our panels are made with a UV stabilised polyethelene. We don't used recycled plastic as this fades and cracks quickly. Certificates can be provided upon request.

8 YEARS OF RELAXATION

For peace of mind we offer 8 years guarantee on selected products. This covers UV damage, fading or cracking.*

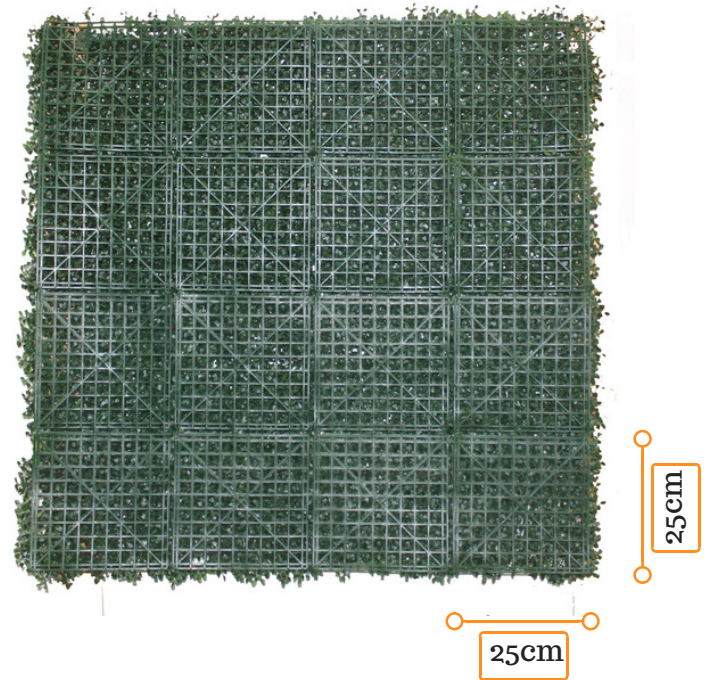

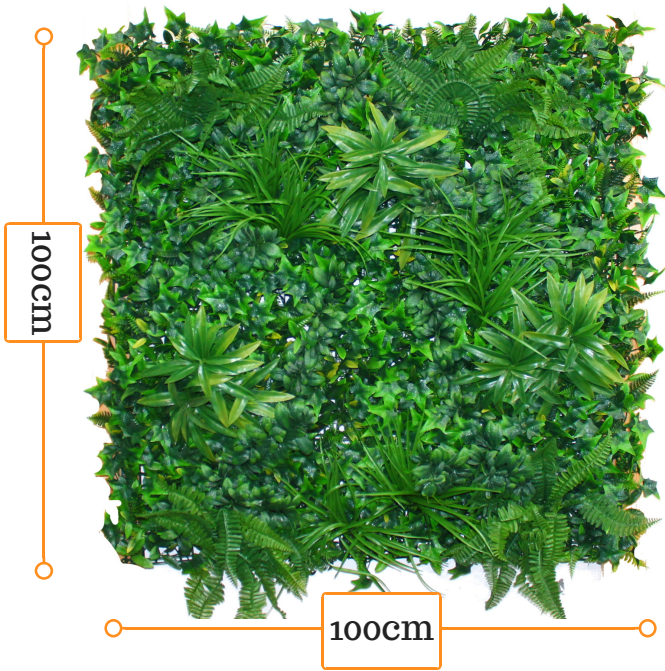

*Warranty only covers damage from the sun or the plastic deteriorating within the 8 years of date of manufacture. The warranty does not cover damage caused by human intervention, acts of god/ natural disasters or general wear and tear.
