

75.00 mm

HOW TO USE:

1. Put it on the portafilter filled with ground coffee.
2. Slightly push the handle and turn the handle around clockwise (3~4 turn)
3. Lift it up and place it back on the Base that comes with cleaning brush.

HOW TO CLEAN:

Simply turn the handle on the Base to remove the ground coffee fines.

If the top is not completely clean, you can use a brush to brush it off.

Alternatively, you may rinse the needle under running tap water. Make sure they are entirely dry before putting them back to the Base.
