Jewelry and Makeup Armoires

Your makeup and jewelry are an extension of your identity.

This is why our jewelry and makeup armoires don't just gift you ample space to store and organize your precious items, but also give you the reassurance that they will stay safe.

We do this through a few simple design adjustments - from a drop-down table that guards your tools of artistry against gravity, to height-adjusted slots that prevent items from brushing against one another, to secure, magnetic doors with an in-built lock. Our long-lasting, weather-proof, stainless steel construction ensures that both armoire and its contents outlast the makeup trends and styles of the season, for years to come.

Designed with deep, adjustable shelves, multi-sized trays, rails, staggered earring bars and bangle holders, our armoires efficiently accommodate every accessory imaginable. All this, because we care for the things you care for. And we're not afraid to show it.

Jewelry & Makeup Armoire
(Full Size Variant)

Your dressing space is where it all begins; that place where you carefully enhance your reflection to match how you see yourself. Gifting you more control over this space, we created three cabinet variants to meet your personal styling needs.

- **Jewelry Armoire**

A necessary upgrade from the simple jewelry box, our jewelry armoires give you an entirely new and efficient way to organize your multi-sized accessories.

While keeping your priceless items safe.
