Premium LED Mirrors

Beautifully designed. Intelligently engineered.

Elegant, crystal clear and fine-crafted, the Premium LED Mirror offers the perfect lighting and color temperature for you to dress up for any occasion. Available in two frame options, its simplicity is a befitting complement to your fine decor.

A mirror that appreciates the art of grooming, this looking glass is sure to light up your mood, every time you step in front of it. But that's not the only thing you'll love about it. With a built-in defogger, a sensor-based gradual on and off system, on hold brightness control and a true memory function that adapts to your taste, the Premium LED mirror is as smart on the inside as it is beautiful on the outside.

To top it off, VanitiBox offers a host of intelligent features to choose from, like soft start with motion sensing, auto shutdown, digital day, date and time display, Bluetooth speakers and more. So, you can customize your Premium LED Mirror with features that are sure to live up to your high standards of indulgence. Perhaps, even surpass them.
