\*Max load includes tabletop & any additional attached fixtures  
Pin and Crank height range 25-41" • Electric height range 27-46"

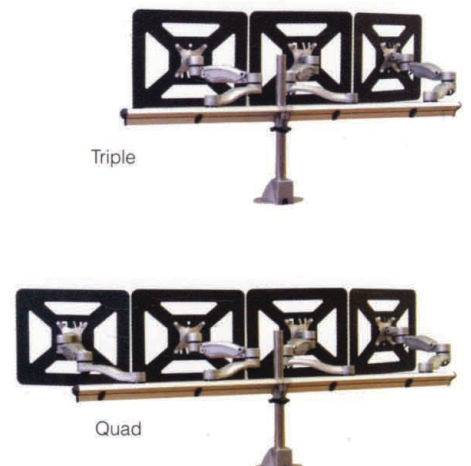

## 4 Select Monitor Arms

All monitor arms tilt, lift, move in all directions, and have a load rating of 8 to 18 lbs. They can be positioned anywhere and come included with desk clamp or grommet mounts. Triple and quad configurations come with beam mount.

Standard color is silver, but can be custom ordered in black.

**5 Accessories**

**Cable Management, Perforated Modesty Panels and CPU Holders**

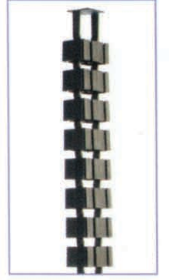

**Cable Trough**

The cable trough mounts to the underside of the desktop and is constructed of 16 gauge sheet metal, finished in Black Sandtex. It allows hidden cable management along the back side of the Workstation.

**Keyboard Platform**

The keyboard platform has a quick-connect mechanism for ease of installation. It can be positioned up and down, left and right. The package includes: Leader sit-stand arm, curved platform and 23" teflon track.

**Vertebra**

The Vertebra provides a clean approach to routing wires to the floor. These wires may come from a wire trough or directly from the grommet if no wire trough is used. It is a flexible, snap-together spine with a metal floor base.

**Perforated Modesty Panel**

Our perforated modesty panel is constructed from 18 gauge sheet metal, has a built-in cable trough, and is finished in Black Sandtex.

Can be ordered in 12" or 18" heights.

Choose from three CPU mount styles; foot, trolley, and under desk. Each mount adjusts 4"-9" wide to accommodate any CPU. Constructed of steel and finished in black.

**Foot Mount**

Mounts in stationary rack attached to desk leg. Keeps CPU off the floor.

**Trolley Mount**

Moves on four casters for easy positioning, and access to cables.

**Under Desk Mount**

Rotates 180° to allow easy access to cables. Mounts to underside of desk.

**Wolf Veo series**

Wolf Veo Seating combines a prevailing style with elegant design features and innovative technologies along with active ergonomic comfort. Wolf Veo has an advanced high tension mesh material which combines transparency, flexibility, strength, comfort, and is friendly to the environment. Wolf Veo is available in two distinct versions.

The Wolf Veo "all mesh" chair includes a mesh back and mesh seat and a ratchet back height adjustment with five adjustment positions as a standard for a perfect ergonomic fit. Wolf Veo chairs include a 6 position two way adjustable lumbar support. Wolf Veo arms are adjustable for height, pivoting & depth adjustable arm pads. The Wolf Veo chair includes a seat slider as a standard with depth adjustment of two inches.

**25518**

**25519**

Fully upholstered fabric seat and mesh back

Height, adjustable arms

Seat height adjustment located on the right side tilt adjustment located on the left side

Height adjustable and pressure sensitive lumbar support

Ratcheting back height adjustment

High profile poly resin base and heavy duty casters

## Height Adjustable Swivel *Electric* Wall Mount Workstation

Lets caregivers focus on what they do best – patient care.

Simply press the up/down button to automatically raise or lower the computer station to a comfortable working height. And when extra space is needed, the keyboard flips up and the arm folds back to the wall.

*Monitor and keyboard arm swivels left to right to enhance patient and caregiver eye contact.*

| Product Code      | Description   | Color |
|-------------------|---|-------|
| <b>POC-ECOW1</b>  | Electric height adjustable swivel wall mount Workstation including electric lift and handset, keyboard and monitor arm, cable managers (CPU holder extra) | White |
| <b>OPTIONS</b>    | Please use separate order line  |       |
| <b>POC-CPUL-A</b> | Attachable CPU holder fastens to bottom of motor housing and fits CPU's 4" to 7.5" wide and up to 17.5" high. Weight capacity 50 lbs.                     | White |
| <b>POC-CPUS-W</b> | Small CPU holder for wall mount fits CPU's 1.75" to 4" wide and 7.75" to 14" high. Weight capacity 22 lbs.  | White |
| <b>POC-CPUL-W</b> | Large CPU holder for wall mount fits CPU's 5.5" to 9.5" wide. Weight capacity 44 lbs.   | White |

## Height Adjustable Sit-to-Stand *Electric* Wall Mount Workstation

Caregivers can quickly adjust the height of the Workstation to permit computer data entry from either a sitting or a standing position. Keyboard tray and monitor move in tandem – there is no need for separate adjustment. Simply press the up/down button to find a comfortable working level.

The Sit-to-Stand Workstation also has a Vertical Monitor Slider that allows caregivers to manually micro-adjust the distance between the monitor to the keyboard for additional working comfort.

| Product Code      | Description   | Color |

| <b>POC-CPUL-W</b> | Large CPU holder for wall mounting fits CPU's 5.5" to 9.5" wide. Weight capacity 44 lbs.  | White |

## Height Adjustable Standing *Electric* Wall Mount Workstation

Standing wall mount Workstation provides easy-to-use height adjustment to accommodate walk-up users. Keyboard and monitor are attached to an electrically height adjustable column (16" travel range) that is easily controlled by a push button up/down switch. Keyboard tray and monitor move in tandem without need for separate adjustment. Keyboard platform with palm support is 25.5"w x 11"d, and folds up for storage. Monitor mount has 75/100 mm Vesa attachment. Cable managers (supplied) can be attached to either side of the lift column or to wall.

| Product Code          | Description  | Color |
|-----------------------|--|-------|

| <b>POC-MA-ADAPTER</b> | Swivel and tilt monitor mount. Attaches to Vesa mount. Manually swivels 10° and tilts 10°. 11ga powdercoated sheet metal.  | White |

### Wolf PACS Workstations

Wolf X-Ray has been providing medical imaging professionals for almost 80 years with reliable products and services, and we are now pleased to present our new line of PACS Workstations!

As with our entire line of products, each PACS Workstation is designed with the operator in mind, and features contoured shapes, body and limb support, and incredible adjustability.

We have over 100 different stock sizes and shapes of workstations to fit every application and room size. This along with our array of peripheral equipment allows us to provide the most comprehensive and desirable PACS workstations available on the market today!

If you can not find exactly what you are looking for, Wolf's knowledgeable customer service staff and local sales representatives will be happy to customize a stock design or start from scratch to design a PACS Workstation custom tailored for you.

We thank you for your continued support!
