DLS 5 Downloading Software Version 1.50 Release

DSC is pleased to announce the release of the new DLS 5 downloading software version 1.50. This version includes the following features and enhancements:

New features:

- Bulk programming firmware upgrade option
- Firmware upgrade notification within the account
- Ability to print selected account sections

New support:

- SCW9057 Version 1.3
- 3G4000/3G4010 Version 4.0

Performance Enhancement:

- Changes to the firmware upgrade connection method to server*
- Improvements to make the account searches more efficient

*Please note that in order to use the remote firmware upgrade functionality, the minimum version for DLS 5 downloading software should be version 1.5.
