

Portable Sauna Bench Assembly Instructions

Tools Needed:

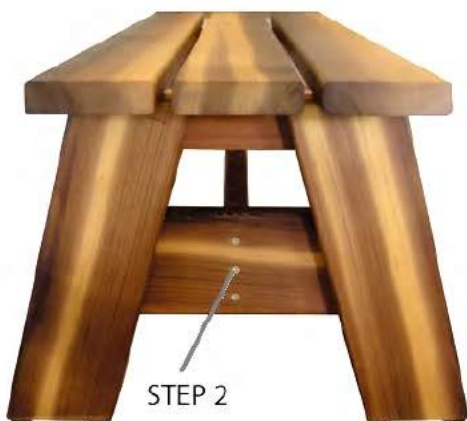

- Drill or Bit Driver Handle for driving screws

Included:

- T-25 Torx Bit
- Bag of 2 $\frac{3}{4}$ " screws

Note: Bench arrives partially assembled. You will just need to attach leg assemblies to bench seat assembly then add crossmember to legs. There are lettered markings to indicated where parts line up, which will be hidden once assembled.

Step 1: Set bench top face down on floor, align legs to bench top with markings, A to A, B to B, etc. Use included screws to fasten through bench seat supports into legs with pre-drilled holes.

Step 2: Align crossmember to leg supports, A to A and B to B with arrow pointing towards top of bench. Fasten with screws into pre-drilled holes.
