LISTED BY OMRI FOR ORGANIC PRODUCTION

Active Ingredients:
Soybean Oil 16%
Citric Acid.....5%
Other Ingredients* :.....79%
Total100%

Net Weight:

64 oz 2.5 gal 55 gal 270 gal

PRODUCT INFORMATION

ECOBLEND WEED CONTROL PRO is a Non-Selective post-emergent, foliar herbicide for use in and around all food crop areas, aquatic areas and residential areas **without reuse restrictions**.

ECOBLEND WEED CONTROL PRO quickly breaks down plant mass into beneficial soil nutrients and biodegrades quickly enriching the soil without leaving toxic residue in the ground and water.

ECOBLEND WEED CONTROL PRO is made from **edible oils and food grade ingredients** and is not a systemic toxin to BEES, humans or animals.

ECOBLEND WEED CONTROL PRO provides effective control of annual and perennial broadleaf weeds, woody stem plants and grasses at dilutions from 32 oz / gallon to 5oz /gallon.

FOR **TOTAL VEGETATION CONTROL** and **VEGETATION MANAGEMENT** mix **ECOBLEND WEED CONTROL PRO** with **ECOBLEND ADJUVANT** at a 1:1 ratio and then dilute with water according to the water dilution instructions on this label. Optimum results occur at 20 oz / gallon after dilution with **ECOBLEND ADJUVANT**. This Adjuvant penetrates the plant and delivers herbicide actives through the plant while also providing rainproofing, defoaming, surfactant, sticker and stabilizing benefits to the herbicide. 5 gallons of mixed Ecoblend Herbicide (2.5 gallons) and Ecoblend Adjuvant (2.5 gallons) can be diluted with 30 gallons of water PER ACRE for **TOTAL VEGETATION CONTROL**.

FOR **SELECTIVE WEED CONTROL**, **ECOBLEND WEED CONTROL PRO** with **ECOBLEND ADJUVANT** can be used at water dilutions of 5 oz concentrate / gallon for control of Briars, Thistles and other woody stem weeds without killing most grass types. Test a small area first to ensure desired results. For **Broadcast spraying** use 1 gallon of mixed **Ecoblend Weed Control (1/2 gallons)** and **Ecoblend Adjuvant (1/2 gallons)** can be diluted with 25 gallons of water PER ACRE for **SELECTIVE VEGETATION CONTROL**.

ECOBLEND WEED CONTROL PRO with **ECOBLEND ADJUVANT** is **FOR USE In and AROUND ALL NON-FOOD CROPS, INCLUDING, but not LIMITED to:**

Non-Food Crops:

Turf, Flowers, Bedding and Landscape
Turf Grass (Maintenance, Sod or Seed Production),
Bedding Plants, Flowers, and Ornamentals
Trees and Shrubs, Forest and Commercial Trees, Landscape Trees, Nursery Trees or Shrubs
Greenhouse and Nurseries All Crops, Plants
Vegetation Management Programs

USER SAFETY RECOMMENDATIONS and Personal Protection Equipment (PPE):

Users should:

- Wear appropriate protective eyewear such as goggles, waterproof gloves and a long sleeved shirt and long pants and shoes.
- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

This product is exempt from regulation under FIFRA, 40CFR, Sec. 152.25(f), minimum risk pesticides.
