

Bandage scissors: multi colored scissors.
Use to cut bandage material.

Gauze pads: square pads.
Used to clean wounds. Also put on a cut before placing bandage over it

Nail clippers: blue clippers.
Use to cut nail. If dog breaks nail cut above break then apply Kwik stop, gauze and a bandage

Cast padding: fluffy bandage in a roll.
Use this after applying gauze to a wound. Or if needing to wrap a leg for support. Wrap around foot or leg

Stretch gauze: thin bandage.
Wrap this over the cast padding when making a bandage. Pull this slightly snug to keep bandage on

Vet wrap: colored bandage.
Put this over stretch gauze or on top of any bandage. It sticks to itself and will add support.

White tape: medical tape.
Can add to bandage for support or use for most other reasons you may need medical tape

Kwik stop: yellow powder used to stop bleeding.
Best for broken nails. Pack onto bleeding and hold pressure. This also numbs the area.
