

IN-HIVE FEEDER

ASSEMBLY INSTRUCTIONS

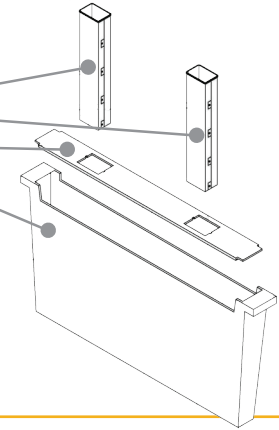

Thank you for your purchase!

At Harvest Lane, we strive to offer the best products in the beekeeping industry.

INCLUDED IN BOX:

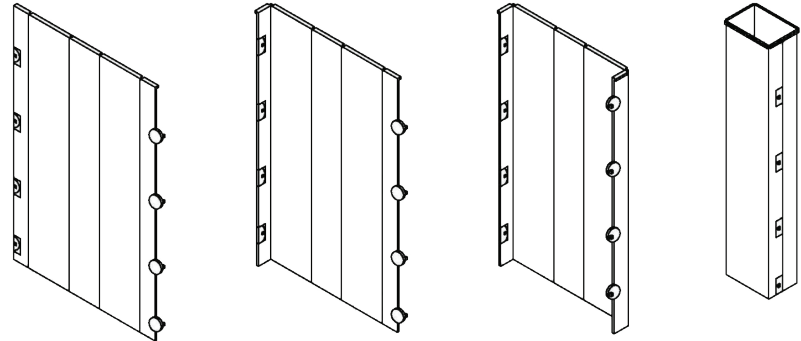

1. (2) Ladders
2. Feeder Cap
3. Feeder (1 gallon)

LADDER ASSEMBLY INSTRUCTIONS

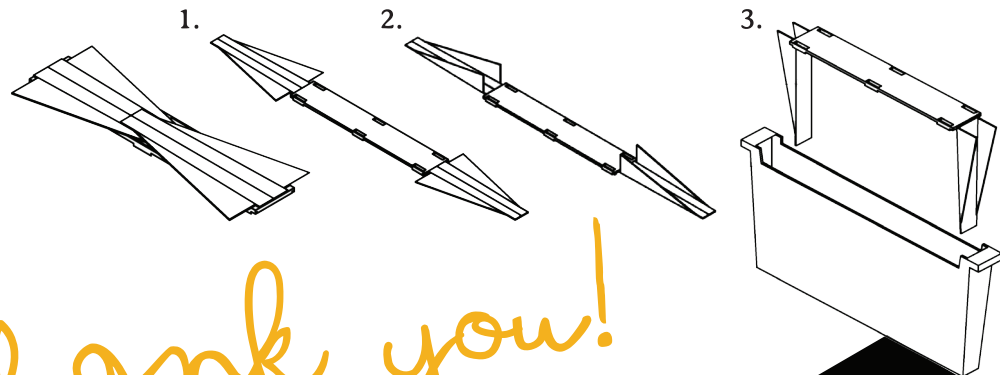

1. Attach Feeder Cap to Feeder first by firmly pressing tabs onto outside of Feeder. It is easiest to do the outer snaps first, then work toward the center.
2. Pre-bend Ladders at hinge points along sides. Make sure ladders are bent so that the ridge along top is opening to the outside (see drawing below).
3. Fold to create a rectangle.
4. Firmly snap clips on edge together to secure. This may be easier if the ladder is laid flat. Snap the center clip first, and work outward. When folded properly, the flange on top of the ladder should be on the outside to create

- a shelf that will prevent the ladder from falling into the opening in the cap.
5. Push ladders into the cap until seated securely. The flange of the ladder will lay flush on the cap when seated completely.

FEEDER ASSEMBLY INSTRUCTIONS

1. Unfold right Ladder then left Ladder.
2. Bend Ladder sides upwards.
3. Fold Ladders down and push Feeder Cap into Feeder.

thank you!
