

Sprinter LED Grill emblem install

Thanks for supporting us by buying our products! Installation requires no tools.

This LED grill emblem ONLY works with the style grill shown here. Your Sprinter also must have factory installed LED headlights.

Step 1. Twist the center emblem counter clockwise until it stops.

Step 2. Remove the emblem and center cup.

Step 3. Disconnect headlight power plug by gently pulling red locking tab.

Step 4. Plug in supplied harness.

Step 5. Plug in LED grill emblem.

Step 6. Install emblem to led base.

Step 7. Twist assembly in place.

Step 8. Test. Start your Sprinter. Wait for alternator to reach 13.5V, emblem turns on. Emblem turns off when voltage drops below 13V when you turn engine off.
