

ATH™

ADVANCED TACTICAL HARNESS

The Advanced Tactical Harness (ATH) is a scalable, lightweight harness for holding mission-critical gear in a variety of environments. This ATH features a custom front panel with attachment points for any two Push-to-Talks and dedicated sets of rubber bands to attach tourniquets. Constructed of lightweight, hydrophobic materials with the **patented (US 10605574)** adjustable Auto-Fit Cummerbund™, the ATH provides unmatched comfort to the end user. Plus, the ATH's scalability into a full armor configuration allows the end user to only require one system for all mission sets.

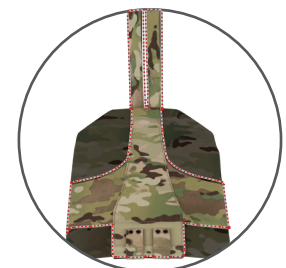

Dual-sided wings allow the user to attach equipment to the inside and outside front panel of carrier

Shoulder pads feature integrated cable-routing and gear attachment points, plus polymer quick-release buckles

Low Profile Auto-Fit Cummerbund™

Optional
Armor Harness for up armor configuration.
