FLAME RESISTANT

CALDERA™ WIND SHIRT

MOVE WITH CONFIDENCE

Building upon the Massif® Combat Shirt expertise, we developed the Caldera Wind Shirt to support your mission year-round. This shirt features Massif® Battleskin™ fabric in the torso for exceptional breathability and true FR protection, without sacrificing durability. The wind-resistant sleeve fabric, SABA®, is a revolutionary new two-layer laminate system that combines proprietary FR processes with unique knit structures. Massif SABA fabric is lightweight and breathable with an advanced Durable Water Repellent (DWR) treatment, making it perfect for under armor applications and advanced layering systems. The Caldera Wind Shirt can be worn with lightweight base layers, mid-weight base layers, or as a stand-alone garment.

FEATURES:

- Full flame-resistant construction with proprietary 4-way stretch Massif® fabrics
- Quarter zip neck allows for easy donning and doffing and increased ventilation
- High collar with a chin guard for protection and comfort
- Flat-seam construction provides additional comfort when wearing armor
- Elbow pad pockets
- Low-profile shoulder pockets to keep gear within reach
- Pen pocket on left forearm
- Wrist cuffs adjust for a custom fit
- Thumb loop inside cuffs for easy donning and doffing
- With IFF tab
