STINGERHAWK SPECTACLE

SAWFLY SYSTEM

SNOWHAWK COLD WEATHER GOGGLE

DESERT/ASIAN LOCUST GOGGLE

BULLET ANT TACTICAL GOGGLE

WOLFSPIDER GOGGLE

1. Optician inserts prescription lenses into Rx Carrier
2. Soldier inserts Rx Carrier into Revision spectacle or goggle
3. Result: Corrected vision behind high-impact protection

A soldier's vision must be accurate in order to do his job properly. Over 30% of soldiers require corrective lenses to improve their eyesight, but wearing traditional eyewear under protective eyewear is not the optimal solution. The Revision Rx Carrier presents a rugged, convenient solution that works.

REVISION'S RX CARRIER – Designed to fit Revision's full line of military products, including the Sawfly® Spectacle System, StingerHawk™ Spectacle System, Desert Locust®/Asian Locust® Goggle Systems, Wolfspider® Goggle System, Bullet Ant® Tactical Goggle System, or the SnowHawk™ Cold Weather Goggle System, this is an effective, efficient way to handle vision correction while providing high impact ocular protection.

KEY FEATURES

RUGGED – Carrier frame built for strength and durability

FIELD-OF-VIEW – Wide field-of-view. Carrier frame color does not distract or inhibit vision

PRESCRIPTION READY – Optician inserts personalized prescription lenses. We recommend polycarbonate and other high-impact material for lenses. Accommodates prescriptions up to ±11D

INTERCHANGEABLE – One size carrier fits the Sawfly & StingerHawk Spectacles, Desert Locust/Asian Locust Goggles, Wolfspider Goggle, Bullet Ant Tactical Goggle & SnowHawk Cold Weather Goggle

CONVENIENT – Secure “press fit” insertion positions corrective lenses optimally
