

GSGM MOUNT

(GROUND SPEC GOGGLE MOUNT)

COLORS: ■ -B ■ -T
(BLACK/TAN)

PRODUCT OVERVIEW

The Ground Spec Goggle Mount (GSGM™) integrates the existing Army mounting capabilities of the GPNVG-18, F4949, F5050 and FGS NVGs for use on a ballistic or non-ballistic helmet. The GSGM features an onboard battery compartment that allows the operator to alternate between an external battery pack or utilize internal power from the mount. The ANVIS interface provides the operator the versatility for NVG adjustment to ensure proper goggle positioning with the reliability you trust from a Wilcox system.

NVG COMPATIBILITY

- AN/AVS-6/9 (F4949)
- AN/PVS-23 (F5050)
- GPNVG-18 (ANVIS)
- AN/PSG-36 FGS (ANVIS)

**Other NVG's are compatible but require additional accessories.
Please call customer service for more information.*

FEATURES & BENEFITS

- ANVIS mounting interface secures NVGs
- Internal power supply provides up to 8 hours of runtime
- Compatible with external battery packs
- Switchguard prevents snagging of power switch
- Adaptable to a wide variety of helmets and shrouds.
- Lifetime warranty on mount, one year on electrical components
