All measurements are in centimeters. The measurements provided refer to body size, not to garment dimensions. Size up if you are between measurements. Inseam will vary depending on the style; unless otherwise noted, they will match the chart above. Refer to the Measurement Guide for instructions on how to find your measurements.

MEASUREMENT GUIDE

Take your measurements over your basic undergarments normally worn. Stand erect without shoes with your feet shoulder width apart. For circumference measurements, make sure to keep the tape measure parallel to the floor.

Find your measurements following the directions below and refer to the size chart to determine the size to order. Do not size up or down. Our garments are designed to fit according to the specified end use and take into account other layering requirements.

Neck - Measure the circumference around the base of your neck.

Chest / Bust - Measure the circumference under your arms around the fullest part of your chest.

Waist - Measure the circumference around the narrowest part of your waistline at your belly button.

Sleeve - Measure from the base of your neck at center back, along the length of your arm in a slightly bent position, to your wrist.

Inseam - Measure straight down from your crotch point to the floor.
