

# FEBRUARY - APRIL 2024 SPECIAL!

TOP OF THE CLASS IN PAEDIATRIC CROWNS

## ACERO CROWNS<sup>3S</sup>

**ACERO CROWNS<sup>3S</sup>** crowns are crafted from surgical grade 316L stainless steel, which is more resistant to corrosion than the 304 stainless steel used by competitors. Our crowns are preformed and pre-contoured (commonly referred to as "pre-crimped") with a shallow occlusal anatomy to preserve healthy tooth structure with less tooth reduction. The bell-shaped crowns are manufactured with optimal thickness, and they replicate the contacts and embrasures of the natural dentition. The laser-etched crowns with easy-to-read numbers won't rub off after sterilisation but can be removed with polishing points if desired. **ACERO CROWNS<sup>3S</sup>** crowns are proudly made in the USA and are 100% interchangeable with other leading brands but at a competitive price.

Crown S/S Acero 3S  
Primary Kit-48  
**Code: 22001**  
Kit-48

**\$398.<sup>00</sup>**

Crown S/S Acero 3S  
Primary Kit-240  
**Code: 22000**  
Kit-240

**\$1999.<sup>95</sup>**

**INTRO  
PRICE**

### Advantages:

- Competitive cost against other leading brands.
- Laser-etched sizes (autoclave proof = less waste).
- Surgical grade 316L US stainless steel.
- 100% compatible and interchangeable with the leading brands.
- Preformed and pre-contoured to prevent micro-gaps.
- Made in the USA.

INTRODUCING

## ACERO NARROW<sup>NA</sup>

**ACERO NARROW** crowns were developed to address the challenges of restoring primary first molars with large interproximal caries. **ACERO NARROW** crowns maintain all the desirable traits of our popular molar crowns but with a 12% reduction in mesial width to compensate for the space loss due to mesial drift of the 2nd primary molar.

Crown S/S Acero Narrow  
Primary Molar Kit-120  
**Code: 22200**  
Kit-120

**\$949.<sup>95</sup>**

**INTRO  
PRICE**

REGULAR ACERO NARROW

### Advantages:

- Less mesial distal width to treat that large class 2 caries space lost.
- Acero case features lightweight design with easy closure and no spillage out of the compartments.

THE MOST DURABLE PAEDIATRIC CROWN ON THE MARKET

ACERO CROWNS<sup>ES</sup>

**ACERO CROWNS<sup>ES</sup>** Aesthetic Anterior Crowns are manufactured using 316L surgical-grade stainless steel veneered with durable white resin and are proven to be highly fracture-resistant compared to other brands. **ACERO CROWNS<sup>ES</sup>** are available in a variety of sizes and created with optimal thickness to replicate the natural dentition. Our crowns are labelled using the **card on inner roof of the case depicts Australian system** with letters A through T to identify the corresponding primary tooth with ease.

Crown S/S Resin Coated  
Acero ES Tray Kit-30  
**Code: 22130**  
Kit-30

**\$1499.<sup>95</sup>**

**INTRO PRICE**

**Advantages:**

- Less tooth destruction required to place ES Crowns.
- Preformed and pre-contoured.
- Life-like translucency.
- Acero case features lightweight design with easy closure and no spillage out of the compartments.

INTRODUCING ACERO CROWNS<sup>Z1</sup>

Continuing our mission to bring the highest quality paediatric crowns as well as giving dentists the most value, **ACERO** is proud to launch our new **Z**, preformed zirconia crowns. The **Z Crowns** are simply beautiful with the morphology and translucency of the natural tooth. Our molar crowns have a flat occlusal inner surface with retentive boxes making tooth preparation simple and quick while providing great retention for the crowns.

Crown Zirconium Acero Z1  
Anteriors Tray Kit-48  
**Code: 22250**  
Kit-48

**\$2495.<sup>00</sup>**

**INTRO PRICE**

**Advantages:**

- Features strong, biocompatible and aesthetic qualities. Prized in dentistry for years.
- Acero case features lightweight design with easy closure and no spillage out of the compartments.

Self Seal Pouches With Class 4 Indicators

INDICATIONS

**Wide Triple Seals Plus Extra Chevron Seal**  
More secure construction less chance of instrument breaching.

**Green Tinted Laminate**  
Identifies any tears or punctures in the film.

**No printing within the sealing area**  
No resistance to steam penetration or ink contamination.

**Corner Tasks**  
Prevent edge roll-up & dust contamination.

**Two Internal Class 1 Indicators**  
Release strip + preprinted provides positive proof that steam has penetrated the pouch.

**Medical Grade Paper**  
As per ISO 11607-1.

**Pre-fold**  
Ensure accurate, fast seal.

FEATURES

- Compliance With ISO Standard 1
- Strong seals 10mm width
- Safe print design
- Pack traceability
- Medical grade paper as per Standard 11607 - 1
- Sufficient glue overlap
- Internal indicators
- Pre-folded

**BUY 3 GET 1 BONUS!**
