SOFTLY Amalgamator

Softly is very stable, extremely quiet, and very easy to clean and maintain. To guarantee totally safe operation, Softly is deactivated when you open the front cover to access the capsule. Softly is made entirely of injection-molded ABS material.

It complies with all electrical and mechanical safety standards.

Contact your preferred Acteon dealer for Special Softly Pricing

SERVOTOME

High frequency electrosurge for orthodontics, periodontics and other oral procedures.

Efficient & Secure Surgery

Servotome totally respects biological tissues: the fine and even cut with no side effects allows good-quality healing.

30 Watts is Sufficient

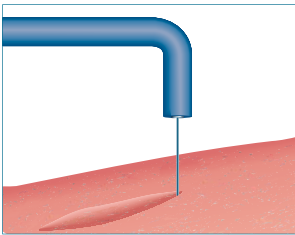

Due to the technology evolution associated with the conductive bracelet, 30 watts is sufficient to perform all dental incision and coagulation procedures providing greater safety.

Experience the benefits of electrosurgery

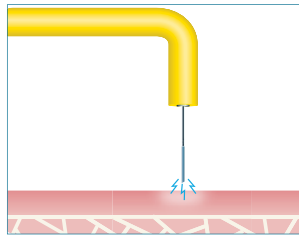

Electrosection

Vaporizing the tissue with the active electrode makes it possible to cut quickly without damaging the edges of the incision.

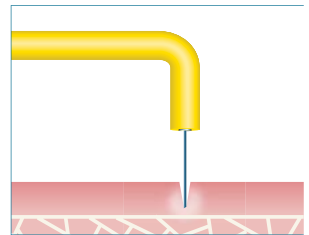

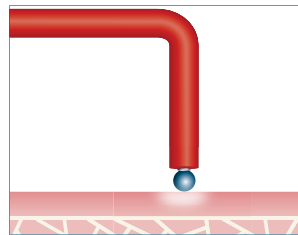

Fulguration

Makes it possible to surface coagulate gingival tissue while protecting the underlying layer.

Coagulation

Concentrating energy at the surface of a massive electrode makes it possible to diffuse the heat to the surrounding tissue and produce instantaneous hemostasis.

BUY 1 x Servotome II, GET 1 x Electrode FREE
