

- 1** Place the Kids Travel Tray on your lap with the curved side facing inward towards you and unfasten the side release buckle.

- 2** Unfold the left and right storage flaps so they're hanging freely to the sides of the tray.

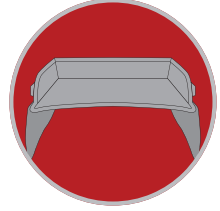

- 3** Fasten the Velcro end of the left tray wall to the left Velcro end of the back tray wall, then fasten the Velcro end of the right tray wall to the right Velcro end of the back tray wall.

- 4** Remove the iPad holder, drink holder accessory (short flap), and storage bin accessory (long flap) and place them to the side.

- 5** Peel the protective film from the white dry-erase board and dispose of it properly.

- 6** Place the tray in front of the seated child with the curved side facing inward towards the child.

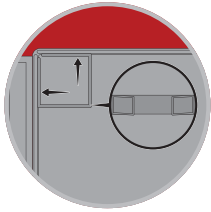

- 7** Adjust the strap to fit snugly around the child or the carseat, stroller, or chair that the child is seated in, then fasten the end of the strap into place.

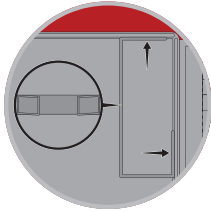

- 8** **OPTIONAL** To use the iPad holder as a stand, fasten the Velcro side of the holder to the Velcro portion of the back tray wall. Slide your iPad into the holder sleeve with the screen facing the holder window.

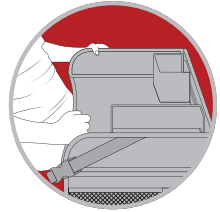

- 9** **OPTIONAL** Kids Travel Tray shown with iPad holder installed.

- 10** **OPTIONAL** To use the drink holder accessory, fasten one Velcro end of the drink holder accessory (short flap) to the back tray wall, then fasten one Velcro end of the drink holder accessory (short flap) to the side tray wall.

- 11** **OPTIONAL** To use the storage bin accessory, fasten one Velcro end of the storage bin accessory (long flap) to the back tray wall, then fasten one Velcro end of the storage bin accessory (long flap) to the side tray wall.

- 12** **OPTIONAL** Kids Travel Tray shown with drink holder accessory and storage bin accessory installed.
