BLAZE-N-BBQ

FOLDING FIRE PIT AND GRILL

- ☑ Folding Design - Packs down flat to enable easy transporting.
- ☑ Stainless Steel - Made with SS201 and SS304 for optimum performance and price.
- ☑ Height Adjustable Grilling - 3 levels enabling perfect cooking.
- ☑ Canvas Carry Bag - Custom designed, heavy duty canvas

Stainless Steel Base Plate with leg clasps, protects the ground, catches ash for easy cleaning and allows entire Blaze-n-BBQ to be moved as one

Stainless Steel Body made from SS 201 which is highly durable, resists rust and develops a beautiful character as it patinas over time with use.

Charcoal Grid spreads the heat source allowing a better cooking area, plus gives greater airflow increasing heat.

Adjustable Stainless Steel Grill made from SS 304 Grill has 3 heights and can be removed to gain access to fire to change, add or remove heat.

Heavy Duty Storage Bag made from Canvas, which is super durable and ages well.
Cotton Canvas fabric instead of Nylon or Polyester means hardware can be packed away while still warm (not hot!).

The Carry Bag is made with "Bradmill" Canvas, not cheap nylons. The bag will last a lifetime.

PRODUCT WEIGHT	13.1kg
SHIPPING WEIGHT - Nylon Bag	13.6kg
SHIPPING WEIGHT - Canvas Bag	14.1kg

NOTES

Dimensions

Fully extended means bridge in highest position and widest point includes grill handles.

Fully closed is lower than sum of component as parts nest inside each other, such as grill into bridge.

Product weights will be +/- minimally due to natural variances in material densities.
