All our products are ideated, developed and made in our 100% plant-based factory in the vibrant city of Glasgow. Our aim is to make flavourful, appealing and highly nutritious food providing everything your body and mind needs.

Our recipes exclusively feature non-GMO ingredients, and we solely use natural flavours and thickeners in our products. We take pride in crafting wholesome food that is healthy for the body, sustainable for the planet and ethical in its creation.

Thanks to our Italian heritage, Sgaia Foods embraces traditional Mediterranean flavours and preparation methods. Yet, influenced by our Scottish and British surroundings, we've integrated these influences to create cutting-edge products that offer a rich and authentic dining experience.

From local markets to the hottest shelves and restaurants in the nation, Sgaia's versatile product range constantly encounters new foodies eager to experience wholesome yet exciting plant-based food.

Italians

Description

This traditional Italian cured meat originates from the Lombardy region in Italy. Originally made from beef, Bresaola is a leaner and tougher cut than its more know “brother” Prosciutto di Parma, which is made from pork. Embrace the heritage of Italy and let our Bresaola Style be the star of your next gourmet masterpiece, as each slice reflects our dedication to quality and the artistry of Italian flavours. Great for tapas, premium sandwiches or experience the elegance of Bresaola Carpaccio, with its thinly sliced perfection draped over peppery rocket. Add a squeeze of zesty lemon, a sprinkle of salt, and a drizzle of extra virgin olive oil. Explore endless creative possibilities with our flavourful Bresaola, harmonising effortlessly with various fillings.
