

## Raptor Wireless Helmet Intercom Speaker Positioning Guide

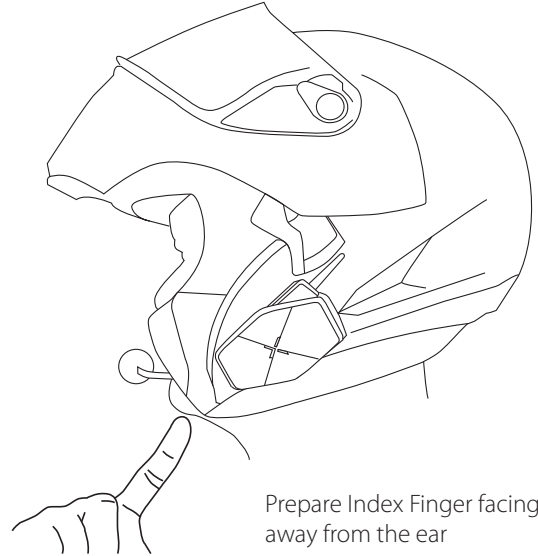

➤ **Aligning the helmet speaker to your ear**  
Please follow these steps to adjust the positioning of the speaker before mounting it into the helmet.

1

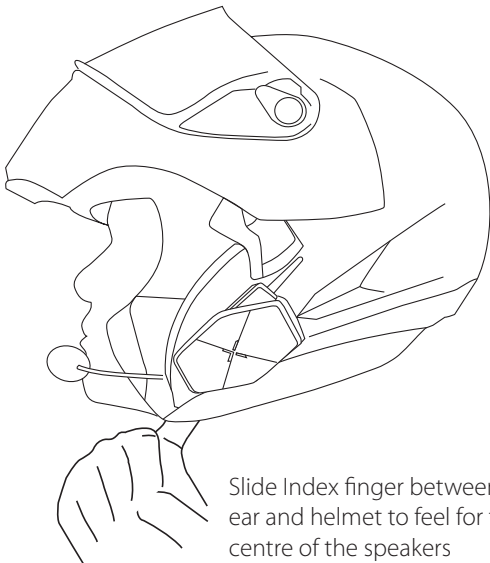

Wear the helmet with the speakers installed

2

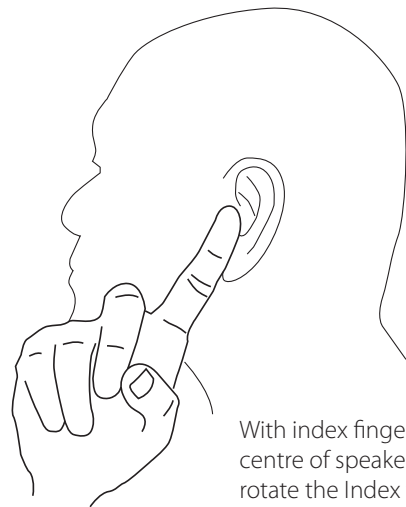

Prepare Index Finger facing away from the ear

3

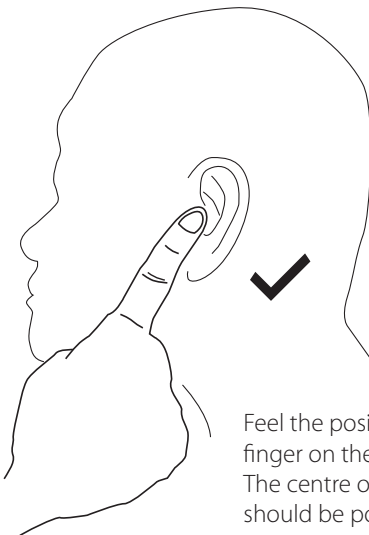

Slide Index finger between the ear and helmet to feel for the centre of the speakers

4

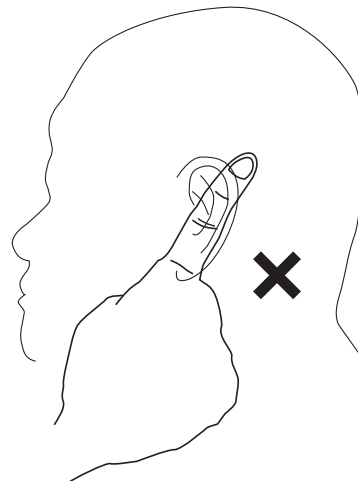

With index finger at the centre of speaker position, rotate the Index finger to face the ear.

5

Feel the position of the finger on the ear. The centre of the speaker should be positioned at the ear canal.

6

Adjust speaker position as necessary to optimise listening pleasure.
