Skimpy Oil Skimmer Setup

Skimpy oil skimmers are compact - small footprint oil skimmers that are highly effective at removing tramp oil to keep your coolant clean and maintain its performance.

The key benefits are extending coolant and tool life, maintenance of surface finishes and stopping bacteria growth.

- 19mm Belt Width X 150mm Long
- Machined from 6061 aluminum bar stock
- Liquid tight motor housing
- 240V Motor with 2 year warranty

The Oil Traffic Controller automatically returns coolant to the tank and lets you direct tramp oil to a large container for easy removal.

Universal clamp is designed to fit any coolant tank.
