

Tell Us How YOU “Sea” It

Draw your favorite marine creature, a conservation poster or map out your plan for saving the Puget Sound... the sky (in our case the SEA!) is the limit. We'll share your drawing in our “How I Sea It” gallery in our “For Students” section of our website.

Have your student draw above. A separate piece of paper may be used but please include this form. Submission of their drawing implies consent to post it on our website/blog/social media/newsletter. Please list your child's name/age/school as you would like it printed (ex: Jack S. or Jack Sprat or JS)

Name _____ Age _____ Grade _____

School _____

Parent Name _____
