# Ring Size Measuring Kit

You can also request for a FREE plastic ring size measurement kit at [www.Tiara.com.sg](http://www.Tiara.com.sg)

## (1) Ring Size Wrap Method : Measure Your Finger

Carefully cut out the "Ring Size Wrap" above.  
Cut a slit on the "Cut slit" line. (use pen knife for better accuracy)

Slip the pointed end through the slit line and wrap around your finger.

**PULL** the pointed end until it wraps around your finger to a comfortable snug fit.

**MEASURE:** The number at the slit is your ring size. (example 8 - US Size 8)

## (2) Matching Method : Use Current Ring

We are measuring the inside diameter of the ring. (see picture on right)

**PLACE** the ring on top of each circle until you find the closest match.

**MEASURE:** The match refers to your ring size.

(note: most rings do not have half sizes)
