PLEASE NOTE: Memory foam is heat responsive and will soften with body heat. It may feel firm initially but will soften once it absorbs heat from your body.

How to use

1 While lying down or in a seated position place the knee pillow between your thighs, knees or upper shins.

2 Wrap the strap around either leg to keep the pillow in place. The strap is adjustable or removable if you'd rather not use it.

! Adjust placement as needed for comfort.

How to clean

- 1 Unzip the zipper on the back of the cushion.

- 2 Put your hand inside the cover and pull out one of the lobes.

- 3 Slowly peel back the cover. If you feel resistance, just fold the memory foam so the cover comes off easier.

- 4 Machine wash cold water. Dryer safe on low heat or air fluff.

IMPORTANT: DO NOT PUT MEMORY FOAM IN WASHER. If the memory foam has a slight odor, remove the cover and put the memory foam in the dryer on low heat or air fluff and add 1 scented softener sheet for 30-40 minutes.
