

Bona Belts

Best

Bona PLATINUM Abrasives

Bona PLATINUM Abrasives are part of Bona's BEST sanding system which provides maximum efficiency with the best sanding results. The combination of ceramic and aluminum oxide materials make this abrasive the perfect solution for aluminum oxide and difficult floors. Bona Platinum Abrasives last 3 – 5 times longer and cuts significantly faster than other competitive ceramic products.

Available in:
8" and 10", 36 grit

"I recently had the opportunity to test the Bona PLATINUM Abrasives on two prefinished floor jobs. For the first job, a single 36 grit belt was used and for the second, five of our standard belts were used on 1,300 square feet of floor. These abrasives outperformed every other abrasive I have ever used to easily remove the old finish. We are extremely anxious to purchase these new belts for maximum efficiency on all our hardwood floor jobs."

- Grigore's Hardwood Flooring • Knoxville, TN "

Better

Bona GREEN Ceramic Abrasives

Bona GREEN Ceramic Abrasives are part of Bona's BETTER sanding system. The combination of ceramic and aluminum oxide grit materials make this abrasive extremely aggressive and offers outstanding productivity. Compared to other competitive ceramic abrasives, Bona GREEN Ceramic Abrasives cut 30% faster and last up to 50% longer.

Available in:
8" and 10", 36 - 120 grit
12" (11^{7/8}" x 31^{1/2}"), 36 - 100 grit
12" (11^{7/8}" x 29^{1/2}"), 36 - 100 grit

"I had the opportunity to test out the new Bona GREEN abrasives and was very impressed with the efficiency and results. We used one 36, 50 and 80 grit belt on 475 feet of a Douglas fir floor. We then used the same belts on 550 feet of maple flooring and then on 950 feet of red oak flooring. Amazingly, there was still life on them. They easily last 3 times longer than the sanding belts we are currently using. Thanks for letting me "test drive" them."

- Mike Galloway, Wizard of Wood • Lake Zurich, IL "

Good

Bona BLUE Anti-Static Abrasives

Bona BLUE Anti-Static abrasives consist of an innovative combination of grit materials and anti-static properties, designed to give you aggressive performance without sacrificing smoothness, at a tremendous value. The addition of anti-static properties helps prevent dust from clinging to the belt, which leads to a more consistent cut, less dust on the floor and will keep your machine cleaner.

Available in:
8" and 10", 16 - 120 grit
12" (11^{7/8}" x 31^{1/2}"), 16 - 120 grit
12" (11^{7/8}" x 29^{1/2}"), 16 - 120 grit

"I have been using the leading competitor abrasives brand since I first learned how to refinish hardwood floors, about 13 years ago. After attending a Bona Certified Craftsman School, working with Bona BLUE Abrasives Belts and watching the Bona Abrasive Video, I decided to do my own side-by-side comparison on the job site. The Bona BLUE Belts definitely outperformed the leading competitor's products and offers the better value for my business. The Bona BLUE Belts are an effective material that aggressively cuts the floor and lasts longer than the competitor's product."

- Helder "Eddie" DeSouza, Gorsegner Brothers • Bona Certified Craftsman "

Bona Edger Discs

Bona GREEN Ceramic

6" Attachment:
Cloth backing
Hook & loop (siafast)
36 - 100 grit

7" Attachment:
Cloth backing
Hook & loop (siafast)
5/16" bolt (also fits 7/8" hole)
36 - 120 grit

Bona BLUE

4" Attachment:
Hook & loop (siafast)
36 - 120 grit
For use with Bona DualEdge

6" Attachment:
Hook & loop (siafast)
36 - 120 grit

7" Attachment:
Hook & loop (siafast) and Bolt-on
36 - 120 grit

7" x 5/16" Attachment:
Bolt-on
36 - 120 grit

7" x 7/8" Attachment:
Bolt-on

6" Attachment:
Hook & loop (siafast)
60 - 120 grit

7" Attachment:
Hook & loop (siafast)
16 - 120 grit

7" x 7/8" Attachment:
Bolt-On
16 - 120 grit

7" x 5/16" Attachment:
Bolt-On
16 - 120 grit

Bona Sanding Rolls

Bona Sport PLATINUM Floor Sanding Roll

Available in 12", 25 yd rolls,
36 grit

Bona Sport PLATINUM Floor Sanding Roll is specifically developed for coarse sanding on the first cut. The optimized blend of ceramic and aluminum oxide provides unprecedented performance in removing urethane finishes.

- Lasts 3-5 times as long as competitive ceramic abrasives
- 4th generation ceramic grain significantly outperforms the competitors 1st generation grains
- Polyester backing is 100% resistant to moisture and humidity

Bona GREEN Ceramic Floor Sanding Roll

Available in 12", 25 yd rolls,
36 - 100 grit

Bona Sport GREEN Ceramic Abrasive Roll consists of a unique blend of ceramic and aluminum oxide grit materials that make it extremely aggressive and offers outstanding productivity in removing urethane finishes.

- Cuts 30% faster than any other competitive ceramic abrasive
- Lasts up to 50% longer than any other competitive ceramic abrasive
- Cloth backing

8" & 12" Bona Silicon Carbide Sanding Rolls

Silicon Carbide blend for use on drum sanders provide a long lasting, consistent cut.

Paper backing
25 Yard Rolls
8" Rolls, 16 - 100 grit
12" Rolls, 24 - 100 grit

"My crew sanded the 15,900

square foot maple gym floor at

Wichita State University. They

started with a competitor 36 grit

abrasive and it was not cutting.

They had to repeatedly swap

out the abrasive. After another

attempt of putting a 16 grit on

the lead drum and trailing with

a 36, we tried out the Bona

PLATINUM 36 grit abrasives. It

was a night and day difference;

we saved almost a whole day

of work due to the efficiency!

We are very excited with the

product and results."

- Paul Hildebrandt,
Creative Floors
Enid, OK

Bona FlexiSand Power Drive

The Bona® FlexiSand Power Drive™ is a powerful and flexible machine that can be equipped with many different drive plates for a wide variety of floor preparation. With its powerful 1.9 kW, 2.6 HP motor and sturdy construction, it runs smooth and stays cool even under a heavy load. The Bona Flexisand Power Drive provides powerful rotary sanding to bare wood and reduces the time needed to edge dramatically. The Bona Flexisand Power Drive delivers an amazingly fine and smooth sanding result and minimizes the risk of drum marks or chatter.

- Powerful, single phase motor
- Forced driven geared drive plate
- Four individually geared grinding pads
- Easy and ergonomic operation
- Large wheels for easy transportation
- DCS compatible for dust free sanding
- Multiple drive plate capability

Bona Power Drive Discs

Bona GREEN 6" Attachment:
Cloth backing
Hook & loop (siafast)
36 - 100 grit

Bona BLUE 6" Attachment:
Paper backing
Hook & loop (siafast)
36 - 120 grit

Bona Black 6" Attachment:
Paper backing
Hook & loop (siafast)
60 - 120 grit

Bona Diamond 6" Attachment:
Hook & loop (siafast)
120, 180, 240 grit

Bona Multidisc

Multidisc Interface Pad 5"

The Bona Multidisc is an innovative – 6 disc drive plate that creates the perfect surface for a Bona Finish System. The six, 5" discs spin independently of each other, all but eliminating swirls and scratch marks, leaving the floor smooth and flat. The Bona Multidisc is perfect for patterned and dark stained floors and removing chatter marks. Universal 5" paper with 8-hole pattern for use on orbital palm sanders. Provides same performance around edges and detail areas to ensure no picture framing occurs.

Sanding Options:

- Use 1/4" pad for uneven surfaces or softer, more open grains and species (included)
- Use 1/2" pad for uneven surfaces or tougher, harder species (sold separately)

Bona GREEN 5" x 8 hole Abrasive Disc Attachment:
Cloth backing
Hook & loop (siafast)
36 - 80 grit
• Ideal for aggressive, long lasting buffing

Bona BLUE 5" x 8 hole Abrasive Disc Attachment:
Paper backing
Hook & loop (siafast)
60 - 120 grit
• Aggressive buffing on natural floors

Bona Black 5" x 8 hole Abrasive Disc Attachment:
Paper backing
Hook & loop (siafast)
60 - 150 grit
• Finest scratch pattern on stained or natural floors

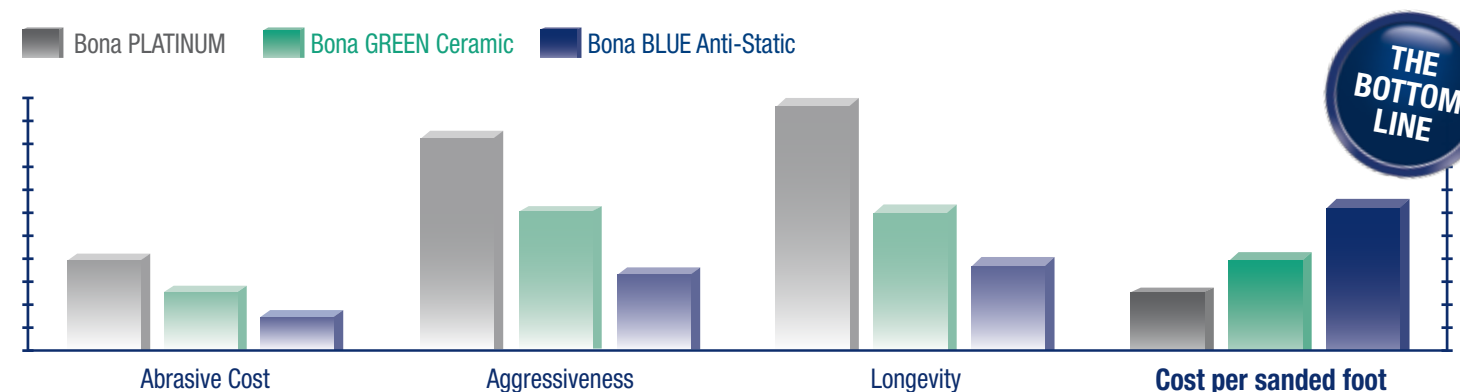

Bona Diamond 5" x 8 hole Abrasive Disc Attachment:
Hook & loop (siafast)
120, 180, 240 grit
• Ultimate intercoat abrasion solution
• 120 grit used for raw wood - ultimate preparation for dark stains

Bona Abrasives

Bona Abrasives have been specifically developed for hardwood floors with performance in mind. The Bona Abrasive range includes products with anti-static properties, which repel dust from the disc surface and prevent build-up to increase belt life and keep the machine cleaner and working optimally. The Bona Abrasive line provides the most aggressive and longest lasting abrasive in the industry, without sacrificing smoothness to achieve the best surface for staining or finishing. Get maximum efficiency and stay on the leading edge of technology with Bona Abrasives. Feel the difference with unsurpassed performance and value on every job.

Bona Abrasive Sanding Systems

	Step 1	Step 2	Step 3	Step 4	Step 5
Best	 Bona PLATINUM Coarse 50 grit	 Bona BLUE Medium - Fine 60-80 grit	 Bona GREEN Edge (2-3 cuts) 36-100 grit	 Buffer (2 passes) 1 st - 80 BLUE 2 nd - 100 Black or BLUE	N/A
Better	 Bona GREEN Coarse 36-40 grit	 Bona GREEN or BLUE Medium 50-60 grit	 Bona GREEN or BLUE Edge (2-3 cuts) Coarse - Fine 36-100 grit	 Buffer (2 passes) 1 st - 80 BLUE 2 nd - 100 Black or BLUE	N/A
Good	 Bona BLUE Coarse 36-40 grit	 Bona BLUE Medium 50-60 grit	 Bona BLUE Fine 80-100 grit	 Bona BLUE or Black Edge (2-3 cuts) 36-100 grit	 Buffer (2 passes) Double sided disc or Screen 80-150 grit

Screens

Consistent, open mesh construction reduces loading. Exceptional grit retention extends life of screen and decreases sanding times by not having to change your screens as often. Provides a consistent scratch throughout the wood surface, resulting in a more uniform look.

- Full resin bond
- More consistent scratch pattern
- Excellent grain retention
- Shrink-wrapped to prevent grit loss
- Available in 16" - 60, 80, 100, 120, 150, 180 and 220 grit

Double-Sided Sanding Discs

For exceptionally flat sanding on all wood floors with a buffer, Double-Sided Sanding Discs provide more aggressive and cleaner cutting than traditional screens or single-sided discs. The unique design eliminates the need for an extra hardplate. Simply drive with a 16" Conditioning Pad on any 16" buffer for incredibly flat, clean floors.

- Unique 16" disc is coated on both sides for maximum efficiency
- Double-sided discs are rigid – will not tear, wrinkle or waffle like single-sided discs
- No "dish-out" of soft grain like a screen
- More durable and longer life than screens or single-sided discs
- Sands exceptionally flat. Ideal for parquet, inlays, borders, and multi-species floors, as well as traditional strip and plank
- Ideal for scarifying concrete and abrading slab leveling materials to achieve a flat and smooth surface
- Simply use the Double-sided disc as you would a screen, driving it under a Bona® Conditioning Pad – No hardplate needed!
- Fits all 16" buffers
- Available in 16", 16-220 grit

Conditioning Pads

The Conditioning Pad is designed for use on waterborne finishes but works equally well on solvent-based finishes. The conforming nature of the pads makes them ideal for most wood floor finish surfaces insuring optimum bonding and the smoothest possible final coat. Conditioning Pads are used with siafast Delta Sheets for additional abrasion to eliminate grain raise.

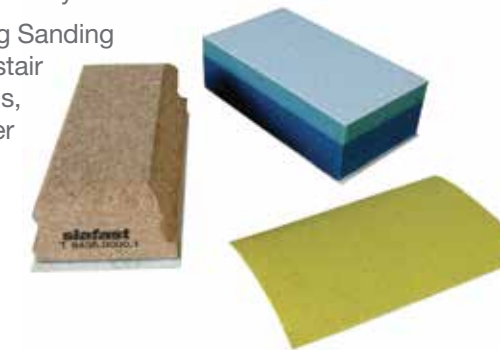

- Will not leave unsightly scratches/swirls
- Abrades finish surfaces thoroughly for uniform appearance and good adhesion
- Will not mark or burn the finish surface
- Cleans easily by vacuuming
- Long wear life compared with other competitive pads
- Glides smoothly over finish surfaces
- Conditioning pad, 320 grit
- Delta sheet, 150 grit
- 16" and 20" diameter

Hand Sanding Blocks and Paper

Bona's Cork Sanding Block and siafast sanding block paper are excellent tools for sanding all areas where hand scraping was necessary.

Bona's Contouring Sanding Block is ideal for stair nosing, T-moldings, reducers and other transition pieces.

Available in 60-180 grit
