

Bona® 5" & 6" Diamond Abrasives

Technical data sheet

Bona Diamond Abrasives are revolutionary in their ability to thoroughly prepare all polyurethane finished floors for recoating, including difficult to abrade ALOX and ceramic prefinished flooring. In addition to being the best smoothing system you can use prior to that all important final finish coat, the Bona Diamond Abrasives last 12x longer than screens and other inter-coat abrasive products. The unique construction and composition of Bona Diamond discs also ensure that they softly conform to the floor and provide unmatched thoroughness in abrasion and smoothing for a scratch-free floor when sanding raw wood.

- Long lasting – one set lasts 4,000-6,000 sq. ft.*
- No visible swirl marks
- Consistent scratch pattern
- Improves adhesion for recoating

*On inter coat abrasion

Order Information

5" Diamond Abrasives

ITEM NO.	GRIT	NO./CASE	LBS./CASE
AASDIAMOND80	80	48	1.25
AASDIAMOND12	120	48	0.50
AASDIAMOND18	180	48	1.05
AASDIAMOND24	240	48	0.95

6" Diamond Abrasives

ITEM NO.	GRIT	NO./CASE	LBS./CASE
AASDIAMD6080	80	32	1.0
AASDIAMD6120	120	32	1.0
AASDIAMD6180	180	32	.75
AASDIAMD6240	240	32	.75
