

# Bona<sup>®</sup>

Established in 1919, Bona is a world leading innovator with a unique system for resilient floor treatment. Through subsidiaries and distributors we have local presence in more than 90 different countries enabling us to be close to our customers and craftsmen.

Our long commitment and passion for floors enable us to offer lasting, sustainable results that meet floor needs for professionals and floor owners alike.

## DUST-FREE SANDING MADE EASY

BONA DCS 50 – LIGHT, EFFECTIVE AND VERSATILE

**NEW**

# LIGHT PARTNER FOR CLEAN AIR SANDING

## DUST-FREE SANDING MADE EASY

The Bona innovative and highly effective dust containment system just got even more user friendly. With Bona DCS 50 you get a light and handy version with nearly the same effectiveness as its bigger brother Bona DCS 70. Now, you can easily ensure a clean sanding even in an apartment house with many stairs or a small bedroom.

- ✓ **LIGHT WEIGHT**
- ✓ **EFFECTIVE**
- ✓ **VERSATILE**

## A NEW COMPACT PERFORMER

### LIGHT, EFFECTIVE AND VERSATILE

The Bona DCS range can be used with all Bona sanding machines and prevents any dust to escape into the surroundings and ensures optimal indoor air quality. The Bona DCS 50 is a light weight, effective and versatile member that can easily be carried up the stairs and be used to vacuum both dry and wet surfaces when sanding.

### DRY SANDING

Wood sanding is a dusty business with microscopic particles that can cause irritation, lung diseases, allergic reactions, and a dirty environment generating a lot of afterwards cleaning. Bona DCS 50 has a certified filtration efficiency of 99,9% (M class) making the percentage of dust in the air very low, creating a healthier work and living environment.

### WET SANDING

In addition to the regular wood sanding the Bona DCS 50 is unique with its possibility to vacuum wet material. With this multifunctional use it is suitable for resilient sanding, creating the same hassle-free renovation as for wood.

# IT'S IN THE FEATURES

## SUPERIOR QUALITIES FOR BEST PERFORMANCE

With functions such as automatic startup of the socket, the inclusion of sustainers on the vacuum head, and a significant less noise disturbance, everyday sanding is now a lot easier. The Bona DCS 50 has several features making it an outstanding product.

AUTOMATIC START

### CONTROL PANEL & POWER SOCKET

The comprehensible control panel makes it easy to operate the Bona DCS 50. With the automatic on-/off switch on the power socket the vacuum starts automatically when the sanding machine is turned on.

### EASY TRANSPORTATION

The Bona DCS 50 is equipped with big wheels and adjustable push handle for easier usage and transportation. The front wheels are also lockable for safer handling.

FLEXIBLE

ADJUSTABLE

### ERGONOMIC HANDLE

The ergonomic push handle is adjustable in several positions for a better work environment and easy transportation.

### DRAIN HOSE FOR WET SANDING

With the separate drain hose, liquid can conveniently be disposed after wet sanding resilient floors.

EASY DISPOSAL

### EXTRA LONG EXTENSION HOSE

The Bona DCS 50 has an extra-long extension hose of 5 metre. For extra convenience the suction hose connector is placed in the machine head as well as in the container.

LIGHT WEIGHT

#### CHANGEABLE FILTER

The M-class PES flat pleated filter is a universal filter for both dry and wet vacuuming that is easy to handle and to change. With the sensor-controlled Tact system the filter cleaning is fully automatic, and the electronic filter detection prevents working without main filter.

UNIVERSAL FILTER

#### EASY HANDLING

The light weight and compact size of the Bona DCS 50 makes it easy to handle even in houses with many stairs or small spaces. The lockable wheels and adjustable push handles also facilitate easy usage.

MULTI-PURPOSE

#### AREA FOR TOOL BOX

Thanks to the flat vacuum head it is possible to put a toolbox on top of the machine. In this way the toolbox is safe in place and always at hand when needed.

99,9% DUST-FREE

#### HIGH QUALITY NOZZLE

Bona DCS 50 is equipped with a multi-purpose nozzle for wet and dry sanding. You also get several nozzles to choose from to fit different work situations, and thanks to the system they are easy to change.

# CLEAN AIR SANDING

## HIGH PERFORMANCE RANGE

Bona DCS ensures a dust-free workspace, and thus healthy working conditions. Offering a variety of dust containment machines, tools, and vacuums, we will most definitely have a solution that benefits both you, your working environment,

and your client. The range provides a completely dust-free environment thanks to state-of-the art dust separation technique. The three-step particle separation, in a sealed system, guarantees safety.

### BONA DCS 50

Bona DCS 50 is a light weight, effective and versatile member that can easily be carried up the stairs and be used to vacuum both dry and wet surfaces when sanding.

- Light weight
- Wet and dry sanding
- **Dust class M**
