Not all water will contain contaminants listed.

Testing was performed under standard laboratory conditions, actual performance may vary. Filter usage must comply with all state and local laws.

Filter is only to be used with cold water. Systems certified for cyst reduction may be used on disinfected waters that may contain filterable cysts.

See owners manual for general installation conditions and needs as well as manufacturer's limited warranty.

Do not use water that is microbiologically unsafe or of unknown water quality without adequate disinfection before or after the system.
