Dear Joel,

I would like to offer my heartfelt thanks and gratitude for your recent gift of \$608.40 received on August 16, 2022 to support the work we do at American Rivers. With your continued investment, you are championing a national effort to protect and restore all rivers, from remote mountain streams to urban waterways.

Rivers provide our drinking water, grow our food, and sustain our spirits. Today, our rivers are at risk as never before from climate change, pollution, drought, flooding, and loss of natural habitat.

American Rivers has always tackled challenges head on. In our 50th anniversary year, and with you by our side, we're picking up the pace and scale of our work on rivers nationwide to address climate change, protect freshwater species, and equitably provide the benefits of healthy rivers and clean water to all.

Here is how we will apply your support to improve the health of rivers and water:

Protect 1 million miles of river.

We are advocating for protection for some of our healthiest, most scenic rivers across the country — which provide recreation, clean water, and natural habitat for the benefit of all of us.

Remove 30,000 harmful dams.

Our work to remove dams will be even more important in the decade ahead. Because removing a dam is the single most impactful way to secure a rivers' future health.

Ensure clean water for every community.

At American Rivers, we're increasing our community engagement so that no communities are left behind. After all, everyone deserves clean water.

Champion a powerful river movement.

We are connecting local river advocates across communities to ensure they have the tools, support, and community to get the job done.

We feel the wind at our back and the momentum growing. But we could not do this transformational work without your support. Thank you for your generosity and for the difference you are making for our rivers.

Sincerely,

A handwritten signature in blue ink that reads "Paula Wolferseder-Yabar".
