Dear Joel,

Thank you for Epic Water Filters' gift of \$1,000 received on June 24, 2022 to sponsor *Silent River*. The best part of my job is when I get to write letters like this one — to share the ways in which your support is keeping rivers healthy and free while providing people with the clean water they need. We are so grateful for your support.

As we look to the remainder of 2022 and the 50th anniversary of the Clean Water Act, your generosity will help us seize critical opportunities to:

- **Tear down dams** and restore the health of high-priority freshwater ecosystems in Minnesota, New Hampshire, Maryland and Pennsylvania.
- **Protect our nation's last remaining free-flowing streams** by advocating for Wild and Scenic protection for more than 6,700 rivers miles in Montana, New Mexico, Oregon and Washington.
- **Revive habitat for river-dependent wildlife** — from freshwater mussels in North Carolina to black bears in South Carolina to salmon and trout in Idaho.

This testimonial from a partner on the Buffalo National River in Arkansas says it best:

"I can't tell you how much of a difference America's Most Endangered Rivers® made in our fight against industrial-scale hog farming on a major tributary to the Buffalo National River. Eventually, the hog facility was shut down. So thank you, American Rivers, and thank you to all the people who support American Rivers. You made a difference for us." — Lin Wellford, local activist. You power our work — to make your backyard river healthier, to enact policies that improve our environment, to advocate for laws that make our water cleaner. I am looking forward to updating you on what we accomplish together.

Sincerely,

Paula Wolferseder Yabar
