Boulder, CO 80301

August 25, 2023

Dear Joel,

From all of us at POW, thank you for the generous \$538.65 gift for unrestricted general operating support from Epic Water Filters, which we received on August 23, 2023. With your support, we are on a mission to build, diversify and strengthen the Outdoor State to become the most influential and impactful voice for climate in the United States.

United by our love of the outdoors and the common ground that connects us, POW is proud to be the place where the outdoor community comes together, gets inspired and takes action for climate. Together, we are the Outdoor State, and when we act together, we are larger and more powerful than any state in the country.

With the right combination of education, inspiration and action, we know that the collective voice of the Outdoor State can create the cultural shift necessary to shift political will in favor of climate policies and solutions. POW is putting the full influence of our Alliance and outdoor community to work to protect the places and lifestyles we love from climate change. To achieve this, we are:

- Growing POW's reach in the Outdoor State, reaching non-traditional climate voices and expanding our powerful movement of climate advocates;
- Training and supporting our Alliance Ambassadors for high-impact action opportunities;
- Mobilizing the Outdoor State for climate wins at the state and federal levels.

We're grateful you're here on the path with us as we turn our passion into action to solve the climate crisis. We look forward to keeping you updated and sharing our progress.

With Gratitude,

Maria Gonzales, Vice President of Development
