

Protect America's Climbing

4/4/2023

EPIC Water Filters  
1630 30th Street, #A394  
Boulder, CO 80301

Dear EPIC Water Filters,

On behalf of our staff, volunteers, and the many climbers we serve, I would like to thank you for your recent donation of \$2,124.00 to the Access Fund received on 03/01/2023 as part of our corporate sponsorship program. Your generous support helps to accomplish and expand the Access Fund mission of keeping our climbing areas open and conserved.

Access Fund is the voice of the climbing community, engaging political leaders and land management agencies on issues that impact climbers coast to coast. As new challenges and opportunities arise, rest assured that the Access Fund remains steadfast in our mission to protect your valuable climbing resources so that you may continue to enjoy them for years to come.

Last year, our Conservation Teams completed over 35 stewardship projects engaging over 1,600 volunteers; our policy team brought more than 60 professional athletes, staff, and advocates to Washington, D.C. to speak out on issues of concern to climbers; and we acquired 878 new acres of climbing areas for long-term protection. In all, access was preserved at 232 climbing areas, and nearly 50,000 volunteer hours were spent caring for those areas. Access Fund also supported over 130 affiliate local climbing organizations with grants, and resources needed to keep crags open and keep you climbing.

Thank you for your generous support.

See you out there,

Chris Winter  
Executive Director
