Tear Drop: 11": (4 segments)

Step 2. (2a) Starting with the largest diameter segment, wedge the bottom (solid) segment flag pole angled to the ground. (2b) Using the next smaller diameter segment, insert the solid end into the top of the larger sized segment.

Note: To ensure proper fit, ensure segments are fully inserted.

Step 3. Repeat until all segments are connected.

BLADE FLAG FABRIC / POLE ASSEMBLY

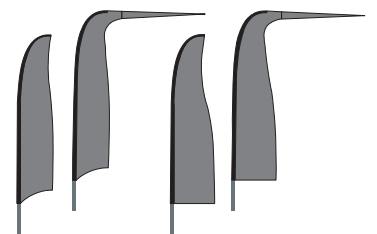

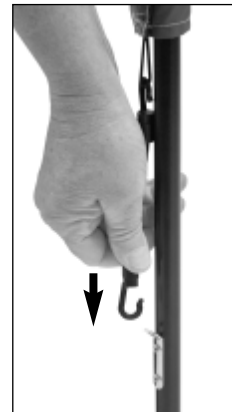

Step 1. Keeping the pole wedged to the ground, insert top of the pole into bottom of flag fabric pocket.

Step 2. Work flag fabric down until end of pole completely reaches end of the flag fabric pole pocket. This will ensure best and proper flag fit on pole.

Note: Working the fabric down slowly makes it easier to slip flag fabric completely through.

Step 3. Pressing and holding the flag fabric against the pole, use the other hand and attach the hook on the flag fabric cord to the eyelet on the pole.

Note: To take ProFlag™ assembly down, follow steps in reverse order.
