

SN 5 SL GB

SMALL WATER HEATERS 5 TO 15 L

PRODUCT-NO.: 221125

For the installation of the small water heater above the draw-off point, the small water heater SN..SL is ideal for the supply of a single draw-off point. These devices are available with capacities from 5 to 15 litres. Their temperature can be selected anywhere between 35 °C and 85 °C, making water with a consistent temperature available at all times. The thermal cut-out provides a permanent, safety-first maximum water temperature. This can be set to 38, 45, 55 or 65 °C. The highly effective thermal insulation of the small water heaters ensures the lowest energy losses.

The main features

Small water heater, 5 litre capacity

For a single draw-off point

Extremely large amount of mixed water

Low standby loss power consumption

Economy setting 60 °C

Splashproof to IP 24

Power cable for permanent connection, approx. 1 m

Type	SN 10 SL GB	SN 15 SL 3.3 kW	SN 15 SL GB	SN 5 SL GB
