

BEEF + BARLEY

INGREDIENTS :	Ground Beef (20% Fat), Beef Liver, Barley, Pigeon Peas, Tapioca Pearls, Pear, Papaya, Safflower Oil, DiCalcium Phosphate, Calcium Carbonate, Salt, Vitamin E, Choline Bitartrate, Magnesium Oxide, Zinc Gluconate, Ferrous Sulfate, Kelp, Pantothenic Acid, Niacin, Selenomethionine, Manganese Gluconate, Copper Gluconate, Thiamin HCl, Riboflavin, Pyridoxine HCl, Cholecalciferol, Retinol, Biotin, Folic Acid, Cyanocobalamin
----------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

AAFCO STATEMENT:	Complete and balanced maintenance diet. Appropriate for all life stages.
-------------------------	--------------------------------------------------------------------------

SUMMARY:	The diet is moderate in protein and in fat and is appropriate for all life stages including large breed puppies. The diet has a mixed fiber source to promote prebiotic effects and has a high digestibility. The carbohydrate ingredients are less commonly used than in commercial foods, so it is a good choice for dogs with suspect poultry intolerances. The diet is high in linoleic acid to help maintain the skin barrier and to promote a healthy coat. The natural beef liver promotes a strong palatability in the diet.
