

CARDIAC SUPPORT: TURKEY + RICE

INGREDIENTS :	Ground Turkey (7% Fat), Sushi Rice, Barley, Turkey Liver, Banana, Pear, Blueberry, Fish Oil, Calcium Carbonate, Taurine, L-Carnitine, Lite Salt, Vitamin E, Choline Bitartrate, Magnesium Oxide, Zinc Gluconate, Ferrous Sulfate, Kelp, Pantothenic Acid, Niacin, Selenomethionine, Manganese Gluconate, Copper Gluconate, Thiamin HCl, Riboflavin, Pyridoxine HCl, Cholecalciferol, Retinol, Biotin, Folic Acid, Cyanocobalamin
----------------------	--

AAFCO STATEMENT:	Complete and balanced maintenance diet. Appropriate for Adults and Seniors. Formulated for the long-term feeding of dogs with cardiac disease.
-------------------------	--

SUMMARY:	The diet is designed for all types of cardiac disease and can also be fed to healthy adult dogs. It features an elevated protein content, moderate fat level, and moderate carbohydrate level. The diet is fortified with EPA and DHA, omega 3 fatty acids that may help some types of heart disease, along with supplemental antioxidants like vitamin E. Taurine and carnitine are added to facilitate normal cardiac function at levels higher than found in any other maintenance or therapeutic diet. Sodium is controlled and electrolytes are carefully balanced to make the diet compatible with commonly-prescribed therapeutic drugs for heart failure. The diet naturally contains high levels of arginine, an important precursor to nitric oxide, and of methionine and cysteine, precursors to taurine. The unique formulation has been designed for enhanced palatability in dogs of all ages, high digestibility, and with naturally-occurring whole foods sources of polyphenols such as blueberries.
