

# HEPATIC SUPPORT EGG + POTATO

Available in 16 oz, 80 oz

**INGREDIENTS:**  
EGG  
RUSSET POTATO  
SWEET POTATO  
COTTAGE CHEESE  
BUTTER  
SPINACH  
CAULIFLOWER  
FISH OIL  
TURMERIC

## DIET OVERVIEW

This innovative hepatic diet provides the benefits of a low copper concentration, an elevated zinc level, highly digestible protein, and moderate, rather than reduced, overall protein levels. Egg and dairy provide easily digestible proteins low in purines. It is indicated for dogs that may have copper-storage hepatopathy, portosystemic shunts, mild to moderate hepatic encephalopathy, urate stones, and other non-specific liver conditions. Elevated amounts of omega 3 fatty acids and turmeric to affect the inflammatory cascade. It is formulated for all life stages with the exception of the copper content so puppies affected by hepatic conditions can be given the diet.

## DIET INDICATIONS

- Copper-storage disease
- Portosystemic shunts
- Microvascular dysplasia
- Mild to moderate hepatic encephalopathy
- Non-specific elevations in liver enzymes (if recommended by a veterinarian)
- Urate urolithiasis

## DIET CONTRAINDICATIONS

- Pancreatitis
- Growing or adult dogs without hepatic conditions
- Severe hepatic encephalopathy
- Intolerance to high fat diets
