

HEPATIC SUPPORT: EGG + POTATO

INGREDIENTS :	Egg, Russet Potato, Sweet Potato, Cottage Cheese, Butter, Spinach, Cauliflower, DiCalcium Phosphate, Calcium Carbonate, Fish Oil, Turmeric, Lite Salt, Zinc Gluconate, Ascorbic Acid, Calcium Pantothenate, d-Alpha Tocopheryl, Calcium Citrate, Magnesium Citrate, Niacinamide, Thiamin HCl, Choline Citrate, Niacin, Zinc Picolinate, Riboflavin 5'-Phosphate Sodium, Pyridoxal 5'-Phosphate, Maganese Picolinate, Bororganic™ Boron Glycinate Complex, Beta Carotene, Folate, Biotin, Adenosylcobalamin, Methylcobalamin, Potassium Iodide, L-Selenomethionine, TRAACS® Chromium Nicotinate Glycinate Chelate, Aztec Marigold Extract, Vanadium Picolinate, TRAACS® Molybdenum Glycinate Chelate, Vitamin D3
----------------------	---

AAFCO STATEMENT:	Formulated for the long-term feeding of dogs with liver diseases.
-------------------------	---

SUMMARY:	This innovative hepatic diet provides the benefits of a low copper concentration, an elevated zinc level, highly digestible protein, and moderate, rather than reduced, overall protein levels. Egg and dairy provide easily digestible proteins low in purines. It is indicated for dogs that may have copper-storage hepatopathy, portosystemic shunts, mild to moderate hepatic encephalopathy, urate stones, and other non-specific liver conditions. Elevated amounts of omega 3 fatty acids and turmeric to affect the inflammatory cascade. It is formulated for all life stages with the exception of the copper content so puppies affected by hepatic conditions can be given the diet.
