

# LAMB + MILLET

A Balanced All Life Stages Meal for Adults and Reproducing or Lactating Dogs

Available in 8 oz, 16 oz, 32 oz, 80 oz

**INGREDIENTS:**  
USDA GROUND LAMB  
USDA LAMB HEART  
PEAS  
MILLET  
CARROTS  
YELLOW BELL PEPPER  
KALE  
VIRGIN COCONUT OIL  
MINT

## DIET OVERVIEW

The diet provides a solution for adult maintenance which contains lower protein levels than other diets but with highly digestible fat sources. The diet is appropriate for endurance canine athletes who may benefit from increased fat content in the diet. The diet is elevated in mono unsaturated and saturated fatty acids, which may be more digestible in some dogs than many diets commonly fortified with polyunsaturated fatty acids. Lamb, as a less common protein source, is also accepted by many dogs who become aversive to other proteins.

## DIET INDICATIONS

- Novel protein food trial (when lamb or millet exposure not previously reported)
- Conditions which benefit from a high fat diet
- A rotational diet for hyporexic dogs
- Diet option for dogs with rice or potato intolerance

## DIET CONTRAINDICATIONS

- Growth (puppies)
- Obesity (weight loss)
- Pancreatitis (acute or chronic)
- Calcium oxalate urolithiasis
- Kidney disease
- Muscle wasting
- Lamb allergy

## NUTRITIONAL FACTS

Caloric Content			As Fed %	Dry Matter %
kcal/kg	1,543	Protein (min)	11.0	35
