

LET'S CONNECT

HELP US HELP YOU. IN CHRIST.

We are a purposeful brand for struggling believers. We aim to connect, collaborate and equip others in the struggle. If you have a passion for creating things in this arena (design, development and content creation)- we would love to connect with you! Whether you are a student, freelancer or business owner, here are our main focuses:

- Developing Substance (biblical “faith in work”) content to encourage and educate like- minded entrepreneurs.
- Creating mission oriented brands or initiatives to launch in our Chapter’s profit share merchandising.
- Building a diverse community & creating career opportunity amongst a very astray arena outside of church walls.

We know the benefits of a small-in-size, large-in-focus organization can make positive changes for communities without disrupting what makes them unique and special. Our small-scale reality makes this possible. But our impact relies on our collaborators and sponsors (you). Typically, a working relationship comes in one of the following forms below. That doesn't mean we aren't open to trying something new!
