

Drill Press Guard, Econ-Series

Part # DPG-ES1

Machine application: Most small to mid-size drill presses, including bench-top and floor models.

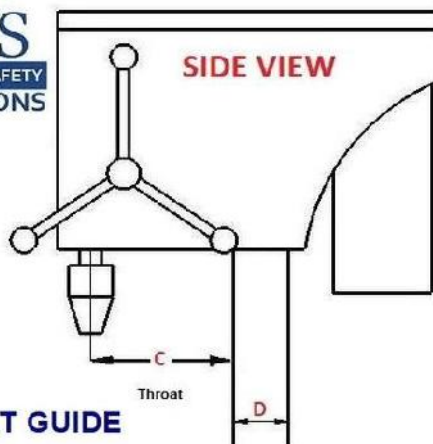

- 6061 aluminum column clamp provides a bolt-on installation - no drilling! Installs in 5 minutes or less.
- Fits column diameters from 2.0 - 4.0" and throat distance of 5-10" (10-20" drill presses). See fitment guide photo.
- Slotted aluminum extrusion allows adjustment in/out and up/down to clear different work setups and table heights.
- Steel adjustable lever for easy re-positioning
- Shield flips upward 180 degrees for part/ drill bit change.
- Powder coated PPG's "OSHA Safety Orange"
- 1/4" thick lexan (polycarbonate) shield. The shield is 7.5" wide x 7" tall. Replacements available.

Price: \$219.00 USD
