Baton Caps

Each distinctive cap in the ASP gallery of designs is compatible with three million ASP Batons currently in service throughout the world. These specialized additions to your baton will fit and function flawlessly. Each cap serves a specific need. Each will enhance your performance. Each will increase your safety.

ASP Baton Caps are precision machined from high strength alloy steel or lightweight aircraft aluminum. They are undercoated to protect their threads. A surface finish guards against abuses of the street. Each Friction Loc® cap is o-ring sealed to the expandable baton that it enhances.

A Distinctive Addition to your ASP Baton

BATON CAP SERIES

541__

Logo Caps are available with 66 standard Prestige insignias including ASP Certification, operational specialty, US military and State Seals.

521__

Logo Band Caps accent the Tactical Baton.® Caps are produced for all Prestige insignias.

52919

52916

52915

Grip Caps are designed to enhance retention. They are produced for both Friction Loc® and Talon Batons. The F Series Grip Cap is available in Textured and Electroless.®

52921

52920

Leverage Caps lock the baton in the officer's hand improving retention and control. This unique design increases both speed to target and impact potential. Available in Textured Black and Electroless.

52914

Wrist Strap Caps are designed for mounted units. The stainless steel cap incorporates a closed loop parachute cord retaining strap and adjustable ball slide.

PRESTIGE LOGOS

Distinctive insignias are available in Brass, Nickel Silver or color fill. To order, combine the first three numbers of the selected Baton Cap with the two numbers of the desired Prestige Logo.

Custom logos are available in Brass, Nickel Silver or color fill. They may be die struck on request for individual agencies or divisions. Custom logos are available with an order for 20 Logo Caps, Guardian Handcuff Keys or Logo Belts

BreakAway® subcaps are designed to be interposed between the cap and handle of Friction Loc expandable batons. Removing the cap exposes three ceramic pins set in a machined aluminum geodome. Talon Batons employ a BreakAway Tip. BreakAways provide rapid entry through a vehicle window.
