

Logo Belts

The webbing of ASP Logo Belts is woven with a distinctive accent line on the top and bottom edge. The tip of each belt is die cut and stiffened. The inside of the belt incorporates a die cut window. A leather pocket accepts an ASP Pentagon Handcuff Key. The buckle of each belt is injection molded with an integral adjustment tab. An inset holds the ASP Eagle medallion. Buckles are available with custom agency or team medallions as part of the ASP logo program.

ASP Logo Belts are available in 1.50 and 1.75 widths.

Concealed Carry

- Custom weave
- 1.50 or 1.75 width
- Accent lines on each edge
- Stiffened tip
- Key pocket
- Inset logo buckle
