

# Pocket Knives

ASP Pocket Knives are designed for Every Day Carry (EDC). Each is a precisely engineered utility tool that is designed to be readily at hand.

ASP blades are produced from the finest stainless steel. They are forged to shape, then hand ground, mirror polished and precisely honed to a razor edge. Each knife fits conveniently in the pocket or on a keyring.

- **Cuff Keys** are back set for rapid location of a keyway.
- **Detachable Clips** allow attachment and convenient removal of knives.
- **Drivers** are patterned to fit both slotted and Phillips screws. They incorporate an EDM File and CM Scale.
- **Liner Locks** prevent blades from unexpectedly closing during use.
- **Pen Blades** are hollow ground with a razor edge.
- **Scissors** incorporate a frame mounted return spring.
- **Serrated Blades** are cut in a two over one pattern. Each incorporates a miniature **Liner Lock**.
- **Split Rings** allow attachment to a keychain. **Detachable Clips** may be quickly removed.
- **Black Scales** are designed for laser engraving of a company or agency logo.
- **Custom Scales** are die struck and color filled.
