

Pulse[®]

The Pulse[®] Every Day Carry (EDC) flashlight from ASP was designed to provide a suit coat torch of incredible brightness. It produces 250 lumens of pure white illumination with an optional reduced output of 15 lumens. Built to complement the finest writing instruments, the format is equally at home in the pocket of an executive, business professional or investigator. Each Pulse is purpose built by a company with decades of experience manufacturing high intensity LED lighting instruments for the law enforcement community.

The body of each Pulse is machined to exacting tolerances, hand etched, then precision anodized to architectural standards. A proprietary pocket clip provides intermittent or constant-on activation. It allows instant access to intense high level or soft low lumen output.

Pulse . . . Simply Brilliant

Background

Aerospace aluminum construction
Precision machined
O-ring sealed
Water resistant
Distinctive profile

Specifications

Length	5.75"	146.05 mm
Diameter	.530"	13.462 mm
Weight	1.52 ounces	43.09 grams (with battery)
System	3 volt	
High Level	250 lumens	
Run Time	1 hour 30 minutes	
Low Level	15 lumens	
Run Time	12 hours	

Body

6061 T6 aluminum
Brushed finish
Architectural anodizing
Gold accents

Pocket Clip

Steel
Machined
Heat treated
Non fatiguing

Dual Fuel

10900 or AAA x2
Lithium-ion
Micro USB rechargeable
PCM protected
Safety vent
Ten year shelf life
Leak proof
Vibration resistant

Activation

Click
Position location under stress
O-ring sealed
Positive circuit contact

Reflector Assembly

Machined aluminum
Computer calculated parabola
Metalized surface
Long distance penetrating beam
Room illuminating halo
Tempered optical glass lens

LED Assembly

Proprietary heat management
Custom driver
Smart chip technology

Pen Compliment

Matching body
Matching finish
Matching clip

Warranty

Limited lifetime

Retractable micro USB cords have reversible charge plugs.
